## FSI to design new library branch

Charles County Public Library announces the selection of F.S.I. Design Group to design the new public library branch.

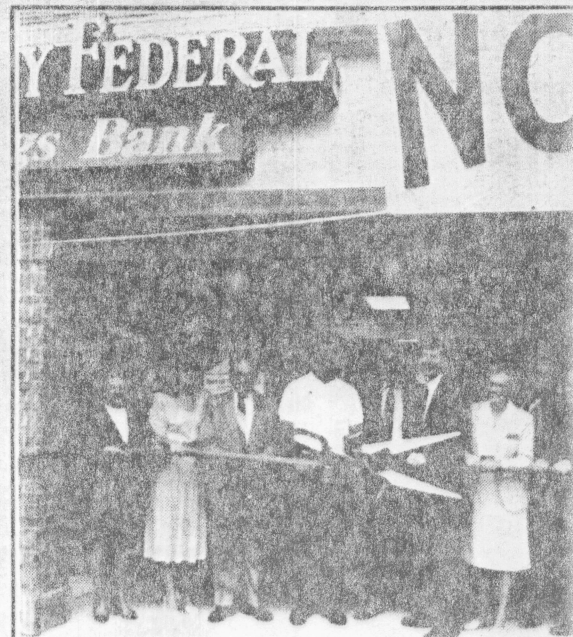

The 10,000-square-foot structure will serve western Charles County and be located in front of Ruth B. Swann County Park.

F.S.I. architects George Tilghman and Jon Kline will work with the library building committee and county capital projects manager, Peter Klemmowsky.

"We are planning a functional library that will harmonize with the wooded site," said Kline at a recent schematics discussion.

"This preliminary design has no wasted space and includes areas for each age group we serve," observed Library Director Kitty Hurrey.

The Library expects design approval by late summer and to put construction out to bid late in the fall. Groundbreaking is tentatively scheduled for spring 1991 with project completion in the spring of 1992.

Tri-County Federal Savings Bank recently held a ribbon-cutting ceremony to open its newest branch at Potomac Square on U.S. 1. Among the dignitaries helping assist president Mike Middleton were Commissioners President Thomas "Mac" Middleton and Del. S. Linton, Barbara Simpson, Judy Rye of the Chamber of Commerce, Mayor William Eckman, Town Council member Francis Eckman, and bank directors and employees.
